

08:30	Registration & networking	
09:15	Welcome & housekeeping	<i>Fifth Dimension Magic</i>
09:30	Technology Updates and Development	<i>Rock Flow Dynamics</i>
09:45	Target Selection for CCS in the North Sea using Common Risk Segment Mapping	Urve Patel <i>Rock Flow Dynamics</i>
10:00	Deconstructing the Myth of Opportunity : Systematic Analysis of Subsurface Outcomes	Lena Broadley, Dilyara Iskakova <i>Spirit Energy</i>
10:30	Introducing tNavigator Seismic: Your Essential Toolkit for Navigating Seismic Data	Marcus Duffy <i>Rock Flow Dynamics</i>

Coffee Break

11:15	Case Study: A Single Solution - Integrated Asset Modelling Approach for a Dry Gas Field	Angela Lodge <i>Rock Flow Dynamics</i>
11:40	Improving Production and Economic Efficiency Using Real-time Digital Oil Field Concept	Alexey Danilko <i>Rock Flow Dynamics</i>
12:05	History Matching and Network Modelling on a Multistacked Field in Niger Delta	Favour Otile <i>Midwestern Oil & Gas</i>

Lunch

13:30	Probabilistic Plume Modelling for CCS	Serkan Kulaksiz, Andres Bracho <i>Rock Flow Dynamics</i>
14:00	Redeveloping Rough – (t)Navigating from Natural Gas to Hydrogen	Heikki Jutila <i>Independent/Exceed Energy</i>
14:30	Oil Recovery Optimization in High Water-Cut Heterogeneous Sandstone Reservoirs	Bruce Addo Dzarake <i>GNPC</i>

Coffee Break

15:15	Solutions to Dissolution: Modelling Techniques for CO2 Storage in Saline Formations	Genna Petho <i>CO2CRC</i>
15:45	Using Advancements in Geomechanics for Optimised Hydraulic Fracture Modelling	Tibor Toth <i>Rock Flow Dynamics</i>
